Storage for the Community

Big Red Storage provides free storage space for up to six months to nonprofit organizations in the Lincoln area. Why? Because we feel it is important for area businesses to contribute to their community in a way that allows its citizens to benefit and prosper.

To be eligible to receive free storage for up to six months with Big Red Storage, the organization must hold 501c nonprofit status and have a history of contributing to the community.

Because of the volume of applications received and the success of this program, there may be a waiting period before your application can be accepted.
